Jesse Alexander Herrera

Tampa, FL Herrera42@usf.edu (239)-304-6822

Education

University of South Florida Judy Genshaft Honors College

Expected May 2026

Bachelor of Science in Computer Science

GPA: 3.60

Clubs: Association of Computing Machinery, Google Developer Student Club, Society of Hispanic Professional Engineers

Relevant Coursework: Programming Concepts, Program Design, Computer Organization, Data Structures, Automata Theory and Formal Languages, Computer Logic, Discrete Structures

Projects

Private Messaging App Python, JavaScript, React Native, Django

July 2024

Developed a full-stack messaging application with real-time communication and user authentication.

Designed and implemented a secure user registration and login system using Django and React Native.

Real-Time Face Identification Python, OpenCV

May 2024

Created a facial recognition system capable of real-time detection and identification.

Implemented the LBPH (Local Binary Patterns Histograms) algorithm to ensure high accuracy and efficiency.

Personal Website HTML, CSS, JavaScript

February 2024

Personal website to show projects and more about myself

- Developed a personal website to showcase my projects, what I am working on, and what I am learning.
- https://jesseherrera.netlify.app/

Snake Game Python

February 2024

Developed a classic Snake game with modern object-oriented programming principles.

Applied OOP for clean, maintainable game logic and scaling future features.

Arduino Object Following Robot *Arduino*

April 2023

Led programming efforts to develop an autonomous robot capable of following objects.

- Collaborated with a team to build and present the robot's functionality at a technology showcase.
- Utilized Arduino to code motion detection and fine-tuned sensors for real-world responsiveness.

Work Experience

Target Front End Team Member May 2023 – August 2024

Naples, FL

- Provided customer service to guests, assisting them with purchases, returns, and opening lines of credit
- Led new hire training for 5 Target employees.

The Home Depot

Lot Associate

September 2020 – August 2022

Managed the parking lot while aiding customers with their items.

Naples, FL

- Trained new hires in customer service skills, time-management skills, and how to safely complete tasks.

Skills

Programming Languages: Python, C++, C, CSS, HTML, JavaScript, Git **Technologies:** Diango, React Native, OpenCV, Ot Creator, Vs Code, Expo

Languages: English, Spanish
